

Greens Deal

Greenhouse 9

- You own Greenhouse 9, a new farm.
- A long contract matters to you. Your bank will only extend your loan if you have a customer locked in for a full year.
- Price matters too. Farms on the station charge between 8 and 12 cr per crate.
- You slightly prefer delivering once a week, but your delivery cart sits idle most days anyway.
- You have to buy new crates every time, so you prefer reusable ones.
- Nobody on the station knows your farm's name yet.
- Hotel Juno will buy your greens at 9 cr per crate, delivered weekly, on a 6-month contract.

Negotiate:

Price per crate

How often they deliver

How long the contract lasts

Crate type (reusable or throwaway)
