

Greens Deal

Orbit Cafe

- You own Orbit Café and buy fresh greens for salads.
- Greens delivered every day are perfect. Weekly deliveries wilt, and customers complain.
- Price matters too. Farms on the station charge between 8 and 12 cr per crate.
- You prefer a short contract, but it isn't a big deal.
- The station charges for trash, so you prefer reusable crates.
- Next month you launch a "Station-Grown" menu, and you want a real farm story to tell customers.
- Sky Farm will sell you greens at 11 cr per crate, delivered every 3 days, on a 6-month contract, in throwaway crates. Their greens are just okay.

Negotiate:

Price per crate

How often they deliver

How long the contract lasts

Crate type (reusable or throwaway)
